The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

10/664,901

Applicant(s)

SUGIMURA ET AL.

Examiner

HELEN SHIBRU

Art Unit

2621

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 October 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 11-16 and 19-22 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 11-16 and 19-22 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Amendment

1. The amendments, filed 10/03/2006, have been entered and made of record. Claims 1-10, and 17-18 are cancelled and claims 11-16 and 19-22 are pending.

Response to Arguments

2. Applicant's arguments with respect to claims 11-16 and 19-22 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 11-16 and 19-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hamada (US PG PUB 20020135608) in view of Seo (US PG PUB 20040184780) and further in view of Nemiroff (US Pat. No. 6, 961,384).

Regarding claim 11, Hamada discloses a recording medium having information recorded thereon reproduction on one or more output devices, the information comprising:

stream files including still pictures (see paragraphs 16, 70, 84, 126-128 and fig. 20); and
play list files for which order still pictures and background music to be played (see paragraphs 0112, 0128, 0142, 0148, and 0181); and

play list marks that correspond to the still pictures (see figs. 12, 18-19 and 30); wherein each of said play list files has one or more play items and one or more sub play items (see figs 2-3),

each of said play items corresponds to one or more still pictures (see paragraph 0082 and 0111),

each of said play items includes start information indicating a presentation start time for the still picture, and presentation time of the still picture (see paragraph 0132, 0135-0136),

each of said play items corresponds to a BGM, each of said sub play items includes start information indicating a presentation start time for the BGM, end information indicating a presentation end time for the BGM, and a presentation time of the BGM (see paragraphs 0090, 0099 and 0118),

each play list mark is associated with only one corresponding still picture (see fig. 18 and paragraphs 0116 and 0117).

Claim 11 differs from Hamada in that the claim further requires the BGM of the SubPlayItem and still pictures of the PlayItem are independently reproduced.

In the same field of endeavor Seo discloses a playlist area storing at least one sub-play item, the playitem providing navigation information indicating at least one still picture from a **first file** to reproduce still picture and the sub-playitem providing navigation information for reproducing audio data from a **second file** (see claims 1, 10 and 13). Seo further discloses the audio data is reproduced in either a synchronized or unsynchronized fashion with the still image (see paragraph 0042). Therefore in light of the teaching in Seo it would have been obvious to

Art Unit: 2621

modify Hamada by reproducing the sound and still picture independently in order to manage reproduction duration.

Regarding claim 12, Hamada discloses start information is in the format of IN_time and said end information is in the format of OUT_time (see fig. 3 and paragraph 0122).

Regarding claim 13-14, the limitations of claims 13-14 can be found in claims 11-12. Therefore claims 13-14 are analyzed and rejected for the same reason as discussed in claims 11-12 respectively.

Regarding claim 15, Hamada discloses an information reproducing method for reproducing still picture information from a recording medium on which is recorded stream files including still pictures, play list files which order still pictures and background music to be played (see paragraphs 16, 70, 84, 126-128 and figs. 2-3 and 20), play list marks that correspond to the still pictures (see figs 12, 18-19 and 30) wherein each of said play list files has one or more play items and one or more sub play items (see figs 2-3), each of said play items corresponding to one-or more still pictures and includes start information and end information (see paragraphs 0119, 0121, 0132-0133, 0135, 0090, 0105, and 0114) and each of said sub play items corresponds to a BGM and includes start information, end information and presentation time for the BGM (see paragraphs 0990, 0142, 0114), and wherein each play list mark is associated with only one corresponding still picture and with only one corresponding play list (see paragraphs 0116, 0117 and fig. 18), said information reproducing method comprising the steps:

detecting said start information and said end information (see paragraphs 0119, 0090, 0099, and 0114);

Art Unit: 2621

controlling said presentation time of said still pictures in accordance with said detected start information and end information (see paragraphs 0090, 0114, and figs. 22, 30-32).

Claim 15 differs from Hamada in that the claim further requires independently reproducing the still pictures of the play items and BGM of the sub play items.

In the same field of endeavor Seo discloses the separate audio file to be reproduced contains in-time information and out-time information. Seo further discloses the audio data is reproduced in either a synchronized or unsynchronized fashion with the still image (see paragraph 0042). Therefore in light of the teaching in Seo it would have been obvious to one of ordinary skill in the art at the time the invention was made to control the sound independent from the still picture in order reproduction duration.

Claim 16 is rejected for the same reason as discussed in claim 2 above.

Regarding claim 19, the limitations of claim 19 can be found in claim 11 above.

Therefore claim 19 is analyzed and rejected for the same reason as discussed in claim 11 above.

Regarding claim 20, the limitation of claim 20 can be found in claims 11 and 15.

Therefore claim 20 is analyzed and rejected for the same reason as discussed in claims 11 and 15 above.

Regarding claim 21, Seo discloses independently repeating reproduction of the BGM of the sub play items, if there are additional still pictures of the play items to be reproduced (see paragraph 0042-0049).

Regarding claim 22, Hamada discloses playing one of a subsequent and last play list file on the recording medium (see fig. 38 and claim 15 rejection above).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HELEN SHIBRU whose telephone number is (571) 272-7329. The examiner can normally be reached on M-F, 8:30AM-5PM.

6. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THAI Q. TRAN can be reached on (571) 272-7382. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
